

Dear Bull Test Consignor and other Interested Persons,

Enclosed are the final results of the Central Bull Test. We had an excellent group of bulls this year with the quality showing in their performance. All the bulls had excellent growth, with the average ADG being 2.43 lbs., good scrotal measurements and sound semen tests.

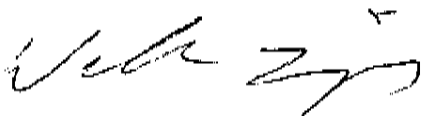

Congratulations to Black Watch Farm with the overall high indexing bull #504 Black Watch Eli. Ledyard Farms had the top ADG bull and the second top indexing bull with #510 Ledyards Oban. The top WPDA and yearling weight bull was #506 Osceola Stealth consigned by Osceola Farms.

These bulls should continue the tradition of excellence of the past years bulls, a tradition that includes three National Champions, numerous show winners and progeny who have excelled in both the show and sale ring. I urge the consignors to confidently promote their bulls and everyone to look over this years graduates for a new herd sire.

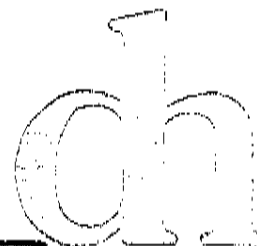

For those looking for the ultrasound results, there was a problem with the machine when they were here last week so it will be done this week, and the results will be available at the sale. If you need the results prior to the sale, please let me know and I will send them to you as soon as I receive them.

Hope to see you all on May 20 at the Central Bull Test and Foundation Female Sale!

Sincerely,

William Lipsey
